Cedric BIENVENUE

`Software Engineer - Backend&DevOps engineer`

I'm a junior software engineer with a good foundation in client-side scripting. I'm currently diving deeper into server-side programming and backend technologies, focusing on building robust, scalable, and efficient systems. I enjoy turning ideas into functional solutions and I'm eager to grow my expertise in comprehensive development skills to solve real-world problems through technology.

EXPERIENCE

ALX Rwanda — Front-End Developer

Kigali, Rwanda — *Marc 2024 - Oct 2024*

Honing my skills and gaining hands-on experience in a front-end development program. Creating visually appealing and user-friendly solutions. Working on real-world projects, collaborate with experienced developers, and continuously learn and grow in the ever-evolving field of web development.

- Developed responsive, cross-browser-compatible user interfaces using HTML, CSS, and JavaScript
- Implemented interactive features and API integrations with JavaScript libraries and frameworks like React.js.
- Collaborated with designers and back-end developers to deliver high-quality, user-friendly web applications.
- Used Git for version control, managing code repositories and resolving conflicts in a team environment.
- Optimized web performance and applied SEO best practices to enhance site speed and search visibility.
- Converted design mockups from tools like Figma or Sketch into fully functional web pages.

Radiant Insurance Company Ltd — Insurance Underwriter

Huye, South, Rwanda (full-time) — *Aug 2023 - Jan 2024*

Detail-oriented insurance underwriter with expertise in risk assessment, policy analysis, decision-making, and strong communication skills. Committed to delivering exceptional customer service, ensuring compliance, and fostering teamwork for organizational success

- Assessed risks and evaluated insurance applications to determine coverage and pricing.
- Collaborated with agents and clients to clarify details and explain underwriting decisions.
- Ensured compliance with industry regulations and company guidelines.
- Provided exceptional customer service and resolved client inquiries.
- Monitored and adjusted existing policies based on changes in risk levels.
